**E-mail letter to co-author(s):**

We would like to post on the *Nursing Research* Editor's Web site [<http://www.nursing-research-editor.com/authors/open.php>] the original manuscript on which you are a co-author that was submitted to *Nursing Research* simultaneously with the print publication of your article. The reviews on your manuscript [insert title here] were balanced and instructive. I am asking the permission of the reviewers to post their reviews of your manuscript, also.

The posting includes this introduction to readers: *At Nursing Research we are taking a first step in open peer review. If readers find this feature instructive we will expand it. Posting information on published manuscripts allows you to read the peer reviews, examine how manuscripts are revised based on them, and understand the contribution of the editorial office. The originally submitted manuscript is posted; you may compare it with the published article. You may review the other manuscripts that have been posted at the URL above.*

We hope that you will be enthusiastic about this project. We think it will be very helpful to authors of articles in nursing research journals.

We look forward to hearing from you.

Thank you.
