

## CHECKLIST FOR STYLE

### References

After the 6th author's name and initial, use et al. to indicate the remaining authors of the article.

Use hanging indent.

Update in-text citations using APA 5th Ed. Format (The Publication Manual of the American Psychological Association, 5th Edition, pp. 208-209). In particular:

On first citation of a reference, list all authors if there are less than 6. For following citations, use first author followed by et al. (e.g., Akpaffiong...)

Don't put a comma before et al.

### Tables

Table 1: Remove "%" from middle and right columns
