Re: Clinical outcomes of aging in place

Dear Dr. Marek:

It is a pleasure to inform you that your manuscript has been accepted for publication in *Nursing Research*. Enclosed is an Author's Agreement form which you should complete, have each author sign, and return to me at the address above as soon as possible. You may make copies as necessary.

Some editing may be done on your manuscript before it is forwarded to the publisher. Do not send a new copy of your manuscript at this time, only the required corrections to Sherry at handfing@email.unc.edu. They are as follows:

1. Please make the changes requested by Rev. #1 (2nd review) per attachment.
2. Page 8, lines 6-10 of 1st full paragraph: Combine this paragraph with the first paragraph under Methods (p. 10). Be sure there is one purpose.
3. Page 17, 2nd para. – “falling through the cracks” – please revise.
4. Figure 2 – Delete “Cognition”, “Depression”, “ADL”, and INC in the legend (each twice) and add “months” (4 times) by Time Period. Also on the y axes, make 1 to 1.0, 2 to 2.0, etc.

Please also note the Final Checklist.

Also, we would like to post the original manuscript you submitted to *Nursing Research* on the *Nursing Research* Editor's Web site [<http://www.nursing-research-editor.com/authors/open.php>] simultaneously with the print publication of your article. The reviews on your manuscript were balanced and instructive. I am asking the permission of the reviewers to post their reviews of your manuscript, also.

The posting includes this introduction to readers: *At Nursing Research* we are taking a first step in open peer review. If readers find this feature instructive we will expand it. Posting information on published manuscripts allows you to read the peer reviews, examine how manuscripts are revised based on them, and understand the contribution of the editorial office. The originally submitted manuscript is posted; you may compare it with the published article. You may review the other manuscripts that have been posted at the URL above.

Would you please send this request [see e-mail draft attached] to your co-author when you correspond with them about the copyright form? We will not post the original manuscript without the permission of all the authors.

We hope that you will be enthusiastic about this project. We think it will be very helpful to authors of articles in nursing research journals. We look forward to hearing from you.

It is not clear at this time just when your article will appear in print. Before publication, you will receive your typeset manuscript from the managing editor for your review. Printing schedules require that you return the copy to the publisher within 48 hours of receipt. Please notify us immediately of any change in your address so that unnecessary delay can be avoided.

Feel free to call or send e-mail to the above address if you have questions. Please visit our Website at <http://nursing-research-editor> for further information. Thank you for submitting your research to *Nursing Research*. We look forward to the final steps in the publication of your work.

Sincerely,

Molly C. Dougherty, PhD
Editor
