RE: NRES-D-08-00075R1, titled "Meta-analysis of quality-of-life outcomes from physical activity interventions"

Dear Dr. Conn,

I am pleased to inform you that your work has now been accepted for publication in Nursing Research. All manuscript materials will be forwarded to the production staff in the near future for placement in an upcoming issue. In the meantime, please prepare the list of included studies for inclusion on the NR Editor's Web site. You may e-mail it to my address (handfing@email.unc.edu).

Also, we would like to post the original manuscript you submitted to Nursing Research on the Nursing Research Editor's Web site [<http://www.nursing-research-editor.com/authors/open.php>] simultaneously with the print publication of your article. The reviews on your manuscript were balanced and instructive. I am asking the permission of the reviewers to post their reviews of your manuscript via this communication as well.

The posting includes this introduction to readers: At Nursing Research we are taking a first step in open peer review. If readers find this feature instructive we will expand it. Posting information on published manuscripts allows you to read the peer reviews, examine how manuscripts are revised based on them, and to understand the contribution of the editorial office. The originally submitted manuscript is posted; you may compare it with the published article. You may review the other manuscripts that have been posted at the URL above.

Would you please send this request to your co-authors as well? They are more than welcome to send an email response to me. We will not post the original manuscript without the permission of all the authors.

Please complete the copyright release form, have each author sign it, and return it to me via fax (919-966-9736), e-mail (scanned copy), or regular mail at your earliest convenience. The form can be found on this site at "Instructions to Authors" (<http://edmgr.ovid.com/nres/accounts/copyrightTransfer.pdf>). You may make copies as necessary.

Thank you for submitting your interesting and important work to the journal.

With Kind Regards,

Sherry Handfing
Editorial Assistant
Nursing Research
